

# Timber Trade in Namibia

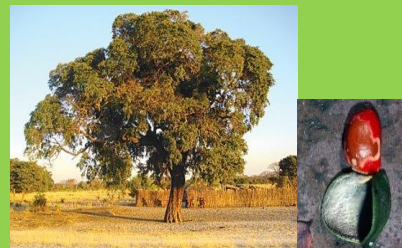

## Key Species

*Pterocarpus angolensis*  
**Kiaat**

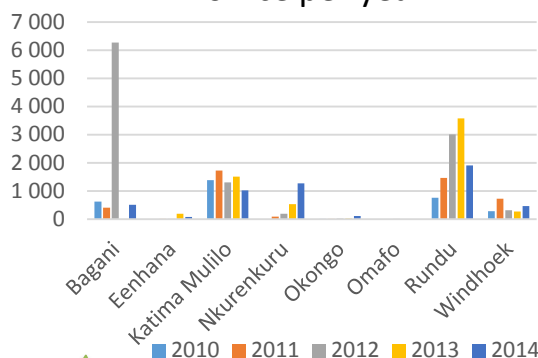

*Baikiaea plurijuga*  
**Zambezi Teak**

*Guibourtia coleosperma*  
**Rosewood**

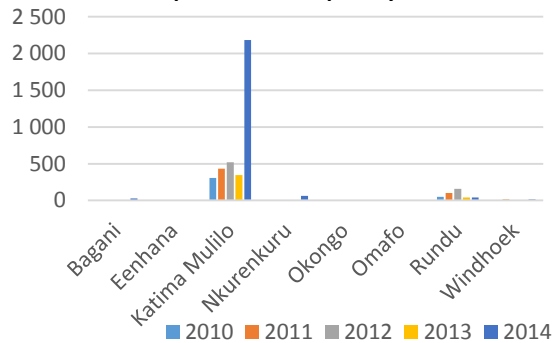

**Kiaat quantity totals (m<sup>3</sup>) per office per year**

In 2012, permits for 6 267 m<sup>3</sup> of Kiaat timber were issued by Bagani DoF. This means about 17 000 Kiaat trees were harvested.

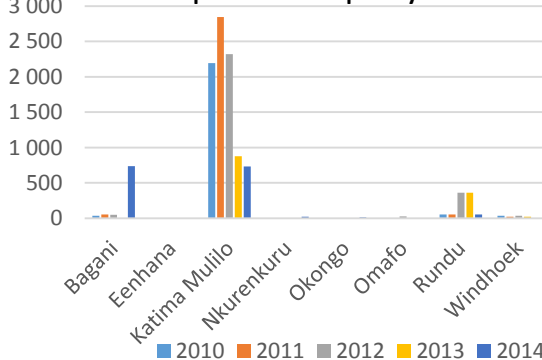

**100%** of this was from Angola and **most (95%)** of this timber was destined for South Africa.

**Rosewood quantity totals (m<sup>3</sup>) per office per year**

In 2014, permits for 2 183 m<sup>3</sup> of Rosewood timber were issued by Katima Mulilo DoF. **99%** of this was from Zambia and **most (86%)** of this timber was destined for China.

**Zambezi Teak quantity totals (m<sup>3</sup>) per office per year**

In 2011, permits for 2 845 m<sup>3</sup> of Zambezi Teak timber were issued by Katima Mulilo DoF. **66%** of this was from Zambia and **most (58%)** of this timber was destined for South Africa.

**Timber Trade Totals per Year for Namibia**

Year	Total m <sup>3</sup> Kiaat	Total m <sup>3</sup> Zambezi Teak	Total m <sup>3</sup> Rosewood
2010	3043	2318	361
2011	4411	2973	552
2012	11108	2798	680
2013	6091	1260	392
2014	5338	1568	2326
